PROFESSIONAL SUMMARY

Junior Frontend Developer and student with hands-on experience building responsive web applications using HTML, CSS, JavaScript, and React.js. Experienced in developing e-commerce applications, task management systems, and interactive frontend projects. Familiar with React, Vite, React Router, Context API, Git, GitHub, Vercel, and responsive web development, with a strong interest in growing through a junior frontend role.

TECHNICAL SKILLS

Frontend:

HTML5, CSS3, JavaScript (ES6+), React.js, React Router, Responsive Web Design

Tools & Technologies:

Vite, Context API, Git, GitHub, Vercel, Tailwind CSS (working knowledge), Figma (basic), React Icons

Language:

English – B1

EDUCATION

Sittwe University, Myanmar

English Major – Undergraduate Student
2019 - Present (Studies currently ongoing; graduation date to be determined due to external factors)

FEATURED PROJECTS

Thwe-Store — React E-commerce Web Application

React.js, Vite, React Router, Context API, JavaScript, LocalStorage, Vercel

- Developed a responsive e-commerce application using React.js with reusable components and a modern user interface.
- Implemented product search, category filtering, sorting, product details, cart, and wishlist functionality.
- Built shared state management with React Context API for cart, wishlist, search, and authentication.
- Implemented client-side authentication, protected profile routes, profile editing, logout, checkout, order history, and order details.
- **Live Demo:** <https://thwe-store.vercel.app/>
- **GitHub:** <https://github.com/jamesroben29-coder/thwe-store>

NovaTech Gadget Store — React E-commerce Web Application

React.js, JavaScript, HTML5, CSS3, Vite, React Icons, Vercel

- Developed a responsive gadget e-commerce application with a modern and polished user interface.
- Implemented product browsing, categories, search, filtering, product details, shopping cart, and checkout flow.
- Implemented Light / Dark theme for a customizable user experience.
- Created responsive layouts for desktop, tablet, and mobile screen sizes.
- Added Sign In and Sign Up pages, a Contact page, and a custom 404 Not Found page.
- **Live Demo:** <https://nova-tech-gadget-store.vercel.app/>

React Todo App

React.js, JavaScript, Vercel

- Built a task management application using React and component-based architecture.
- Implemented interactive task management functionality and deployed the application to Vercel.
- **Live Demo:** <https://nna-react-todo-app.vercel.app/>

Additional Projects: Movie App • Weather App • Food Filter Project

EXPERIENCE

Frontend Development — Personal Projects

Hands-on development experience gained through building multiple React and frontend web applications, including e-commerce, task management, product filtering, movie, and weather projects.
