PROFESSIONAL SUMMARY

Junior Frontend Developer and undergraduate student with hands-on experience building responsive web applications using HTML, CSS, JavaScript, and React. Personal projects include e-commerce applications, task management, and image galleries. Familiar with React Router, Context API, LocalStorage, Vite, Git, GitHub, and Vercel. Seeking a remote-friendly frontend internship or junior opportunity to contribute to practical projects and continue developing as a frontend engineer.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, React Router, Responsive Web Design
State & Browser APIs	Context API, LocalStorage, file input handling, client-side validation
Tools & Platforms	Vite, Git, GitHub, Vercel, React Icons
Currently Learning	TypeScript (basic knowledge), Tailwind CSS (working knowledge)
Other	Figma (basic)

EDUCATION

Sittwe University, Myanmar
English Major — Undergraduate Student
2019 – Present | Undergraduate studies ongoing

FEATURED PROJECTS

01 Thwe-Store — React E-commerce Web Application
React.js · JavaScript · Vite · React Router · Context API · LocalStorage · Vercel
- ✓ Built a responsive e-commerce interface with reusable React components.
- ✓ Implemented product search, category filtering, sorting, product details, cart, and wishlist.
- ✓ Added authentication, protected profile routes, profile editing, checkout, order history, and order details.
